

Hello Parent,

We're excited to use the Tools of the Mind curriculum and platform of digital apps in our classroom this year. Tools is dedicated to improving children's ability to learn and to collaborating with educators like myself to support children's learning.

Through Tools' secure digital platform, your child will be able to access learning resources, including Tools' reading and/or writing apps, and submit voice recordings of their reading and writing samples so we can see learning progress over time. I can also set you up with a family account so you and your child can continue to access Tools' learning resources, reading and/or writing apps, and easily communicate with me in the comfort of your home.

As a Tools teacher, I also have the opportunity to receive support from a dedicated Tools support person to deepen my teaching of the curriculum and ability to meet the needs of each learner in my classroom. As part of this, I may share classroom videos with my dedicated Tools support person. All personal information shared through Tools' digital platform remains private and is never shared externally without your explicit permission.

Tools of the Mind is committed to protecting your child's privacy with the latest and best security practices, and requires that we obtain permission from you before using their platform.

- Learn more about Tools of the Mind: <https://toolsofthemind.org/>
- Read their privacy policy: <https://toolsofthemind.org/digital-products-privacy-policy/>

I look forward to launching the Tools platform with you and your child this year -- I think you'll really enjoy it!

Tools apps we'll be using:
